

Foghorn Therapeutics to Participate at the 2021 Webbush PacGrow Healthcare Virtual Conference

August 3, 2021

CAMBRIDGE, Mass., Aug. 03, 2021 (GLOBE NEWSWIRE) -- Foghorn Therapeutics Inc. (Nasdaq: FHTX), a company pioneering the discovery and development of a new class of medicines targeting genetically determined dependencies within the chromatin regulatory system, today announced that Steven Bellon, Ph.D., Senior Vice President of Drug Discovery, is scheduled to participate in a panel at the 2021 Webbush PacGrow Healthcare Virtual Conference, which is being held from August 10-11.

Panel Details:

Title: "Bullseye – Targeted Oncology Part 2"

Panel date and time: Wednesday, August 11, 10:20 a.m. ET

Members of the Foghorn management team will also host investor meetings during the conference.

A live webcast of the panel can be accessed under "Events & Presentations" in the Investors section of the Company's website, www.foghornrx.com.

About Foghorn Therapeutics

Foghorn® Therapeutics is discovering and developing a novel class of medicines targeting genetically determined dependencies within the chromatin regulatory system. Through its proprietary scalable Gene Traffic Control® platform, Foghorn is systematically studying, identifying and validating potential drug targets within the chromatin regulatory system. The company is developing multiple product candidates in oncology.
